## About This Game

SWARMRIDERS is a FREE "endless runner"+"twin stick shooter" ARCADE mashup. A "machine gun swarm surfing minigame" made as a bonus content for the UBERMOSH community. 400 years before the events of UBERMOSH:BLACK, the Blade Saint was just a mercenary gunner, shredding eyes on the backseat of a bike.

Players can expect a few minutes of elegant gameplay, responsive controls and a heart pumping original soundtrack.

Had a lot of fun with this one! Kept playing and before I knew it 1 hour had passed! \ud83d\udc4d.  
Bad\u2665\u2665\u2665\u2665arcade game! Really fun and intense game to play when you have some free time!  
And it's free, so why not click that download button :-)

9V10. This game. Simple? Yes. Easy? No. I got all four achievements with in two attempts. Still not easy.. You have to concentrate and stay focused for a couple of minutes if you want to get a high score. I was surprised by how long I was able to survive. I like what this game does to my brain. Recommended.. Easy to run on a potato, easy controls, 4 simple achivements. No complaints here.. I really wanted to like this game. I really did. Don't get me wrong, I did enjoy my playtime very much but saddly it was just too short of a playtime. This game lacks the idiotic joy and replayability of playing any of the Ubermosh games and the achievements are very easy to get. It's not a bad game in my point of view, just unfinished. Sure it's a free game, but a little more effort could have been warrented.

4.9V10. An alright shot em up game it is more luck than skill though. Had to slow down the game to get the cheevos.. Got all the achievements within 11 minutes.

Fun, Free and Frustrating. Whats not to love.. Prepare to not blink for about 15min and have cocaine injected directly into your heart.

Sometimes it's hard to see what's going on.

9V11. **PROS:**

**Amazing soundtracks.**

**Good visual design.**

**100% achievements.**

**Easy gameplay.**

**Controller support.**

**CONS:**

**Stuck at full-screen.**

**No options menu.**

**Short.**

**Final judgement: 85/100. I really enjoyed this game as it was something different that branches of from the main series itself. I myself played for ten minutes and got all the achievements, but it was really fun! It's free so don't be afraid to play a little bit of it. The other thing I liked about this game is the OST which is amazing like the other games!. SwarmRiders is a 100% free very short & small bonus for fans of the UberMosh series in the form of a endless runner, endless mob type deal mashup.**

**I have no complaints, it's just a very simple and quick free game with a target demographic at ubermosh fans. (Can technically be 100%'d within 160 seconds, assuming perfection upon first try. Took me around 30 minutes)**

**Music is great and doesn't get too repetitive, which I expected but was glad it didn't.**

**Solid recommendation to anyone looking to try it out.. Exactly like its sister series, Ubermosh, Swarm Riders is a volatile, frenetic, blast of a time.**

**Flee from a swarm of voracious insects, all while blasting away as many as you can. How long can you last? Not long.**

**But don't worry: the game restarts at instant speed so you can try over and over and over again.. The most intense Two-and-a-Half minutes of your life.**
